

AG™ KRAFT FACED ROLLS WITH ECOSE® TECHNOLOGY

Description

As part of the ThermaCare Stable airtight Envelope Solutions Ag™ Kraft Faced Rolls are a cost-effective thermal glass mineral wool wall insulation for energy-efficient construction. The ECOSE® technology provides a bio-based binder that contains no phenol, formaldehyde, acrylics or artificial colors. The consistent quality, low dust, and lean-cutting resilient fibers make installation fast.

Application

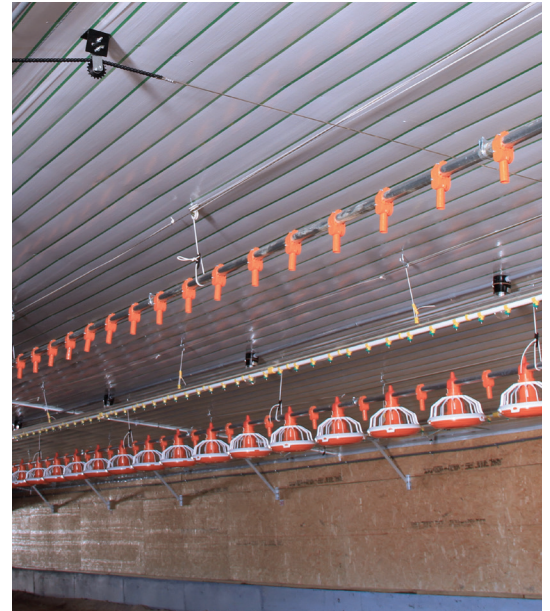

Ag™ Kraft Faced Rolls (with two tabs to staple) can be used in new and retrofit applications in agricultural wood frame structures.

Dimensions

R-value	Width	Length
R-11	23"	70'6"
R-13	23"	39'2"
R-19	15"	39'2"
R-19	23"	39'2"
R-19	24"	39'2"

Physical/Performance Properties

Corrosiveness	Type II, Class C ASTM C665
Surface Burning Characteristics	25 flame spread ASTM E84
UL Environment	Greenguard Certified Greenguard Gold
